

# Become an MVP of ESG

Leveraging Tech for More  
Comprehensive Sustainability

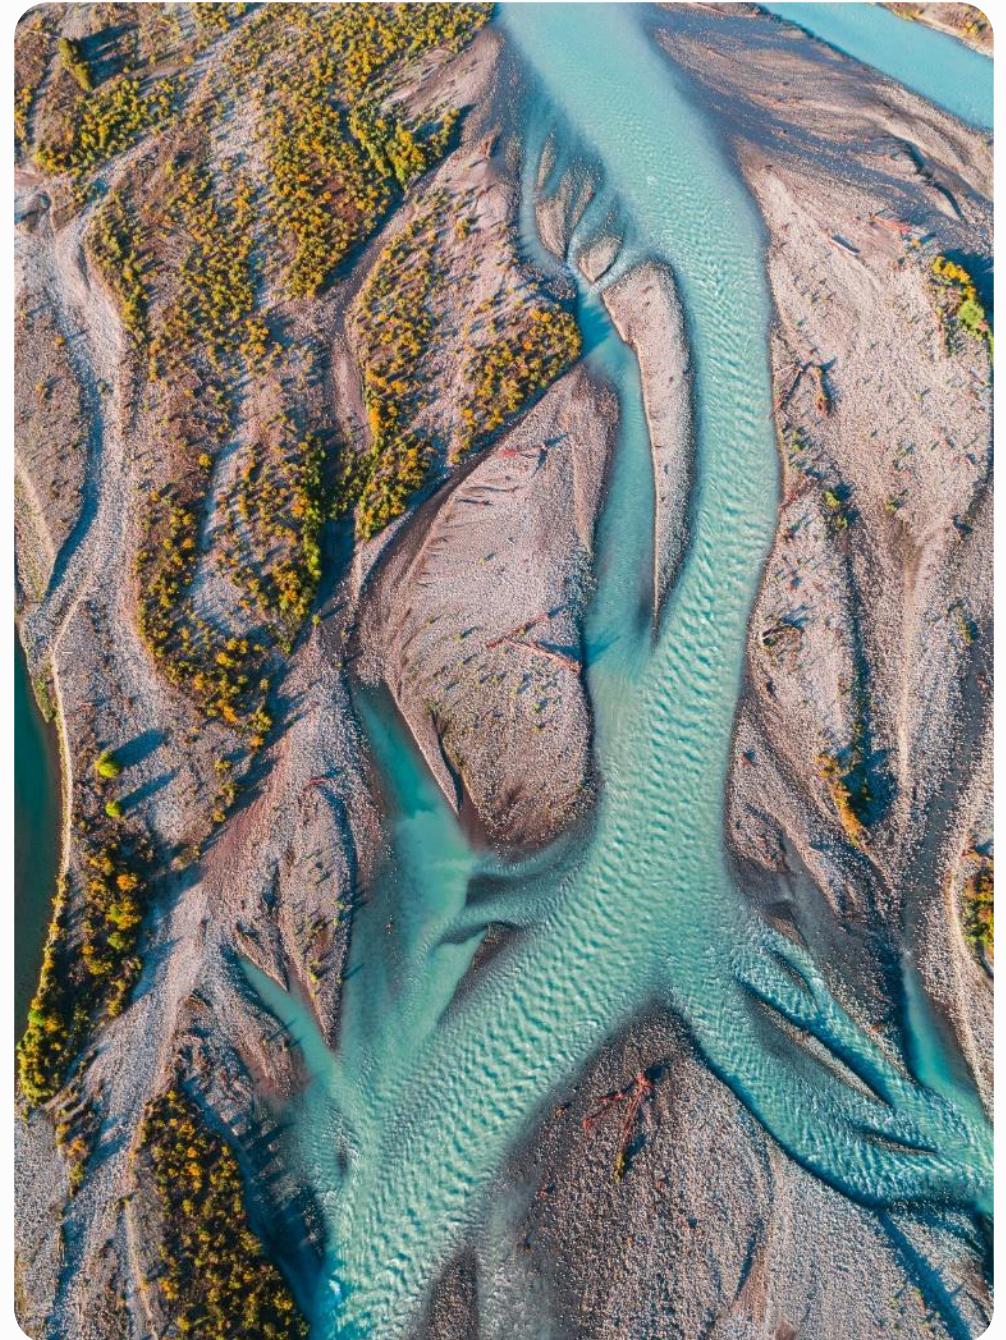

Presented by

# Agenda

14<sup>th</sup> November 2023

1. Identifying themes in the evolving ESG and sustainability landscape
2. Developing a framework to address sustainability program challenges
3. Leveraging technology through all stages of your sustainability program

# Sustainability Today: An Evolving Landscape

1

## EXPANSION

Collaborate with Suppliers on Scope 3

2

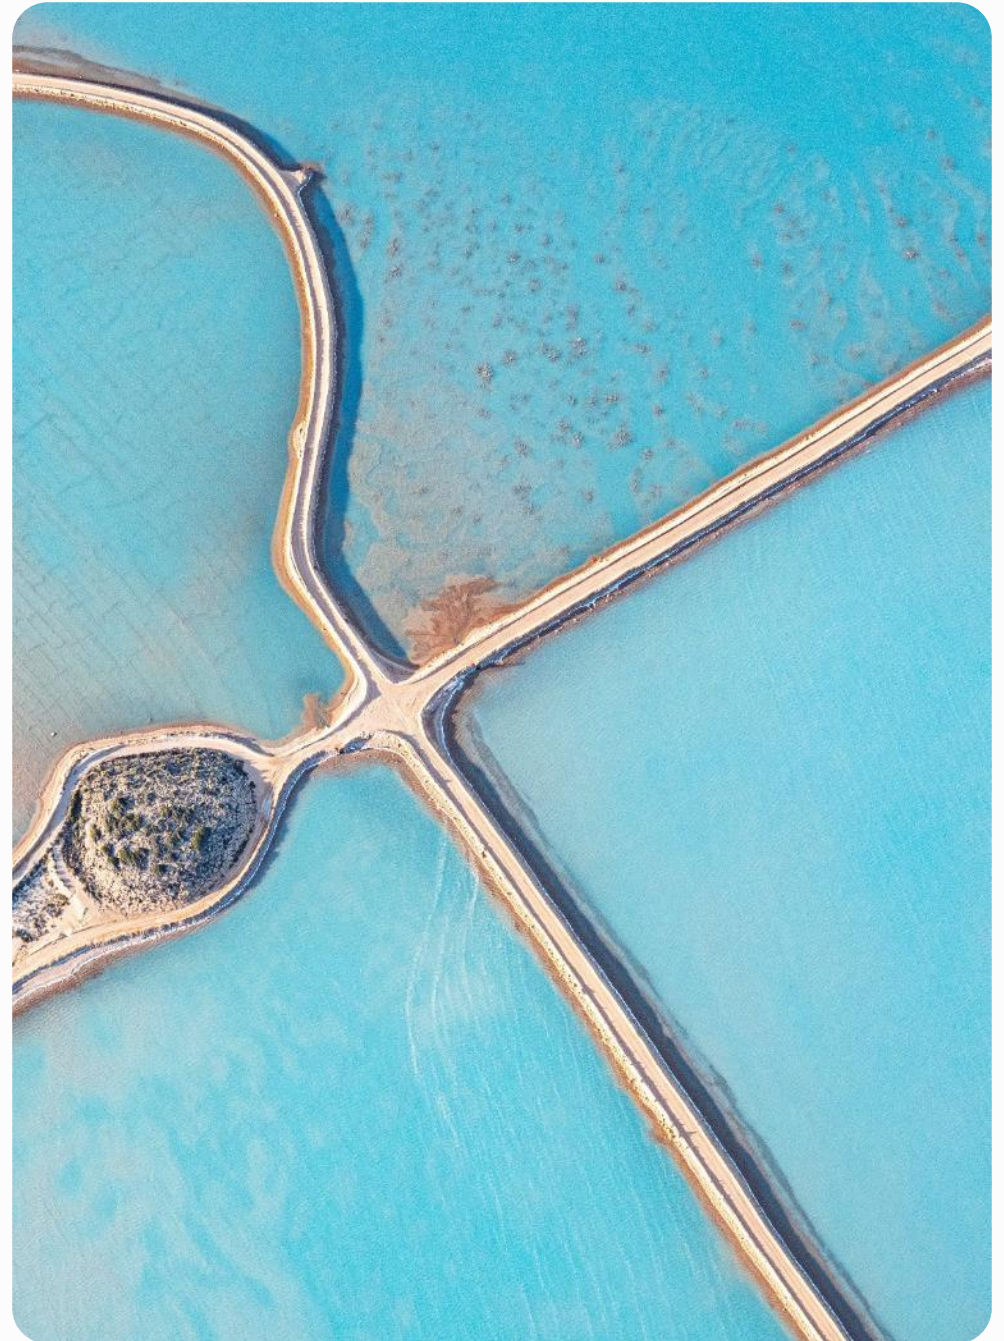

## DISCLOSURE

Prepare for SEC, CSRD

3

## ENGAGEMENT

Activate internal and external stakeholders

# Sustainability Leaders Face An Uphill Battle

- 1 Reducing the time and effort required to collect and report your E, S, and G data
- 2 Unscrambling the jumble of required and voluntary framework reporting
- 3 Aligning your entire organization around your goals and program to best support your sustainability progress
